August 4, 2011

I write this letter of recommendation on behalf of Rick Soshensky. He and I have worked together for the last 5 years, first serving traumatic brain injured individuals and more recently, serving the elderly in a nursing home setting. His role and responsibility was as Director of Creative Arts, including Music Therapy.

Rick is blessing to his residents. He makes people feel better about themselves through music and various interactions during concerts and performances. He helps those with dementia and brain injury by giving them an opportunity to build their self esteem and dignity. He brings creativity and a sense of accomplishment to the residents.

Rick is the consummate professional and draws in employees, families and visitors. He makes residents feel that they important again and through song, they regain some moment in their lives when they were robust and healthy!

I have hired Rick twice and would not hesitate to do so again. He will bring joy to whatever workplace is fortunate to employ him. He would be a gift to young people who are considering Music Therapy as a profession.

I recommend him highly!

Sincerely,

A handwritten signature in black ink that reads 'Anthony P. Marmo'. The signature is written in a cursive style with a long, sweeping underline.

Anthony P. Marmo, Administrator
